CoteTrickl	Serge	Glan Maurizio	Giulio83	Irinag_84

Orazur

8C Competizione

**Driven by excellence.
As powerful as a dream:
inspired by the
8C Competizione**

Concept

dream

“There are no B-pillars, so from the side, the window looks like an eye (very attractive), while the small circular rear lights are clearly inspired by the 8C and the history of Alfa Romeo.”

compact

An Alfa Romeo Revolutionised

MultiAir engines with Start & Stop system: state of the art automotive engineering to optimise performance and environmental care. Up to 170 bhp for an acceleration of 0 to 62 mph in 7.5 seconds. The MiTo also comes with a special electronic control system: **Alfa Romeo D.N.A.:** taken straight from the world of racing, this feature can adjust the responses of the car depending on the driving style and conditions. The electronic Q2 system offers exceptional road holding, while MacPherson suspension and rebound springs ensure the superb handling you expect from a genuine Alfa Romeo. Designed to satisfy the highest Euro NCAP rating, this car also offers optimum safety. All of these features combine to make the MiTo the sportiest compact car in the world.

sporty

MultiAir engines with Start & Stop	Power up to 170 bhp
λParticulate filter	Alfa Romeo D.N.A.
λElectronic Q2	Suspension with rebound springs
λVDC with Hill Holder	Bose® Sound System
λDynamic Steering Torque	LED rear lights
λBlue&Me™	Bi-Xenon headlights
λ7 airbags	Up to 18" alloy wheels

Design

bold

Length 4.06 m
Width 1.72 m
Height 1.44 m

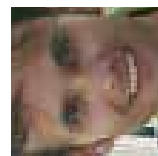

These are the vital statistics of a sports car on which even the styling details are designed for optimum performance. 16", 17" or 18" alloy wheels with wide tread tyres for true sports handling. Rear lights with LED technology and a distinctive design in response to the need for high visibility and improved safety. Exclusively for the MiTo: customisable headlight frames, available in Titanium Grey, Lucid Chrome, Satin Effect, Opaque Black or body coloured.

"The front is beautiful – it looks like a sculpture created by speed, and once you turn the key..."

Giulio83

new motoring standards

MultiAir system for those wanting engineering excellence in performance and fuel economy: 1.4 MultiAir Turbocharged 135 bhp and 1.4 MultiAir Turbocharged 170 bhp petrol engines. A selection of two turbo diesel engines for those seeking intense driving pleasure: 1.3 JTDm-2 95 bhp and 1.6 JTDm 120 bhp. There's also a 1.4 16v 78 bhp and a 1.4 16v 95 bhp petrol engine, specially designed for young drivers. All of them have a deep, throaty roar that screams power and adrenaline.

technological revolution

Performance

"Thank you! These new engines will be a real technical turning point and the MiTo will be perfectly suited to my needs!"

MultiAir

This technology marks the new generation of petrol engines: high performance, economical and versatile.

An increase in maximum power output from 10% – 35% with a cam profile designed for high performance

Up to 15% more torque in the low rev range thanks to direct control of valve lift

Up to 12% faster pick-up thanks to the high pressure of air mass

Up to a 10% reduction in fuel consumption and carbon dioxide emissions thanks to the elimination of pumping loss

JTDM-2

The second generation MiTo is now here with JTDM engines, the next stage in engine evolution following the Common Rail Direct Fuel Injection System. In fact, the 1.3 JTDM-2 95 bhp system uses special injectors which, thanks to a balanced hydraulic servo valve, control with high precision the amount of diesel injected into the combustion chamber. It has a faster and more flexible sequence of injections than the previous generation.

new injectors

advanced generation

• JTDM-2 advantages

Optimising combustion makes it possible to achieve incredible results in terms of consumption, emissions, acoustics and steering capability.

▲ 170 bhp

MITO

Cloverleaf

a new legend

A car which boasts advanced motor engineering, capable of reconciling sports performance and reduced consumption. It is the Cloverleaf, a car that combines technological appeal with special features including manoeuvrability, top level safety and driving pleasure. It enjoys a 170 bhp MultiAir system with a specific output value among the highest in its segment (124 bhp/litre) and an enviable power-weight ratio (6.7kg/bhp).

dynamic suspension

MITO uses Dynamic Suspension:

The electronic shock absorber control system that actively and continuously varies the response of the chassis depending on road conditions and the driver's requirements. Dynamic Suspension is designed to interface perfectly with Alfa Romeo D.N.A. and other on-board electronic systems.

170 bhp MultiAir

Start & Stop

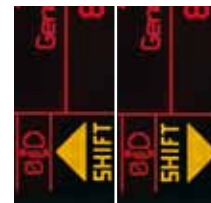

The MiTo has a priority: respect the environment. With this in mind all its engines respect the Euro 5 regulations. But not only that; its engines are equipped with the Start & Stop system, which turns off the engine whenever the vehicle is stationary and idling, then re-starts it automatically. This system can be deactivated at will by the driver, but when active achieves a noticeable reduction in fuel consumption, emissions and noise pollution.

Eco Solutions

The MiTo also has another device on board for reducing fuel consumption, depending on the engine.

The Gear Shift Indicator (GSI) device, always active in the Normal and All Weather modes, suggests when the driver should change gear to maximise the efficiency of the engine via a luminous indicator on the dashboard.

Gsi

Gear Shift Indicator

New MultiAir Technology

MultiAir controls the influx of air into the engine directly as it enters the cylinders.

The system is based on the insertion of an amount of oil between the cam and the intake valve, which can be varied through a solenoid valve. By electronically controlling the opening and closing of this valve it is possible to regulate the power of the engine with a greater degree of flexibility, with innumerable advantages that have never before been possible: reduced fuel consumption and carbon emissions, increased maximum power and maximum torque, optimised drive performance.

The new range

	1.4 MultiAir TB 135 bhp		1.4 MultiAir TB 170 bhp
Displacement	1368 cc	Displacement	1368 cc
Torque	206 Nm (21.0 kgm) at 1750 rpm	Torque	250 Nm (25.5 kgm) at 2500 rpm
Maximum speed	129 mph	Maximum speed	136 mph
0-62 mph	8.4 s	0-62 mph	7.5 s
Fuel consumption	50.4 mpg (5.6 l/100 km)	Fuel consumption	47.1 mpg (6.0 l/100 km)
Co ₂	129 g/km	Co ₂	139 g/km
Emission Standard	Euro 5	Emission Standard	Euro 5

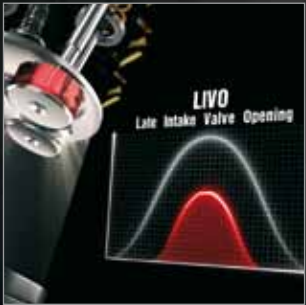

How MultiAir technology works •

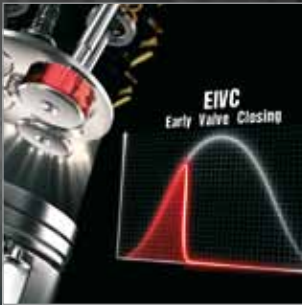

MultiAir technology allows the lift profile of the valves to be modified in response to the request for air from the engine.

The results of this system are truly revolutionary: with the MultiAir system it is also possible to open the same valves twice during the same cycle, surpassing the structural limits of the mechanical camshafts.

Different strategies can be employed to optimise the combustion efficiency, according to the driving situation.

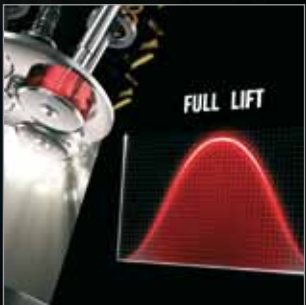

LIVO (Late Intake Valve Opening)
Engine partial load
E.g. at engine start-up or idling

EIVC (Early Inlet Valve Closing)
Torque at low revs and engine full load
E.g. during acceleration

MULTI LIFT
Multiple valve opening
during the same cycle
Minimum torque and power
E.g. city driving

FULL LIFT
Full opening of the valves
When full engine power is required
E.g. on motorways

Petrol engines

A different combination of the three settings is activated for each of the three selector positions

Instrument panel

The display shows which settings are currently selected

VeryCool

“Guys ... I’m impressed with the suspension video ... the gears move with great fluidity and the car rides so smoothly ... truly unbelievable!! :D

agility

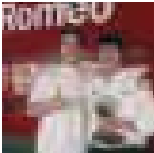

The MiTo asks something more of its grip suspension: pure driving pleasure and maximum safety. A job entrusted to next generation technology, such as rebound springs working with a MacPherson suspension structure at the front and a torsion bar system at the back with semi-independent wheels. The result is incomparable handling and sportiness.

response

Handling

- **Electronic Q2** Reproduces the action of a self-locking differential
- **ABS** Anti-Lock Braking System
- **EBD** Electronic Braking Distributor between the front and rear wheels
- **VDC** Electronic Vehicle Dynamic Control for better stability
- **ASR** Anti Slip Regulation system provides traction control by adjusting the brakes and ECU
- **HBA** Hydraulic Brake Assistance for emergency braking
- **Hill Holder** System to aid hill starts
- **MSR** Motor Speed Regulator controls engine braking when the accelerator pedal is released
- **CBC** Cornering Brake Control optimising braking performance on bends
- **DST** Dynamic Steering Torque integrates power steering with the VDC system: a light impulse on the steering wheel requests the driver to correct over steer

“In Dynamic mode, the engine torque curve changes, with the accelerator responding more quickly.”

Serge

Dynamic mode fun and sporty

VDC and ASR	Less intrusive VDC and ASR - Electronic Q2 activation
Electric Power Steering	Sportier tuning
DST	Standard braking control coordinated with ABS Greater control of lateral acceleration Oversteer correction: slight pressure through the steering wheel encourages drivers to steer in the correct direction
Engine	Faster response
Suspension	SDC (Synaptic Damping Control) Sport suspension set-up, for less body roll and improved grip through corners. (MiTo Cloverleaf only)

Normal

Dynamic

“What can I say? Spectacular!! What torque delivery!!! Even in sixth gear, you could still feel the power of the engine and hear its roar. After a couple of laps, the driver said: ‘This is just what it can do in Normal mode’. Imagine what it’s capable of in the others!”

2Simo86

Normal mode Agility in the city

VDC and ASR	Standard setting
Electric Power Steering	Normal tuning
DST	Standard braking control coordinated with ABS Standard control over lateral acceleration Oversteer correction: slight pressure through the steering wheel encourages drivers to steer in the correct direction
Engine	Standard response
Suspension	SDC (Synaptic Damping Control) Normal suspension set-up. (MiTo Cloverleaf only)

All weather

All weather mode To minimise the skid in adverse conditions

VDC and ASR	More intrusive VDC, less intrusive ASR
Electric Power Steering	Normal tuning
DST	Greater braking control coordinated with VDC Standard control over lateral acceleration Oversteer correction: slight pressure through the steering wheel encourages drivers to steer in the correct direction
Engine	Standard response
Suspension	SDC (Synaptic Damping Control) Normal suspension set-up. (MiTo Cloverleaf only)

“It’s as if this little Alfa, glued to the road, showed me the way, recovering in situations where I really thought it wasn’t possible. Great! Nice one Alfa!”

Gian Maurizio

Jack 33

Protection

Seat Belt Reminder (SBR) technology

- 5 Star Euro NCAP safety rating for the Alfa Romeo MiTo. 7 airbags.
- Double pre-tensioners on front seat belts.
- Anti-whiplash devices on front seats.
- Collapsible steering wheel.
- New range of tyres offering more grip.
- SBR (Seat Belt Reminder) technology:
 - 5 icons displayed on a small screen
 - inform the driver whether the seat belts of all the passengers are securely fastened.

“Congratulations on the excellent safety equipment!!
Seven airbags as standard is a lot.”

The MiTo is equipped with **Blue&Me™** technology enabling the driver to use mobile phones and listen to music from an MP3 player or USB stick, without needing to take their hands off the steering wheel. And for optimum in-car sound quality, the MiTo boasts the latest generation of **Bose®** hi-fi sound system.

Radio NAV

Designed specifically for the MiTo, this highly advanced infotainment system is integrated into a single console.

Audio

Optimum sound quality is provided by this system, complete with CD/MP3 player and radio with steering wheel controls (where provided).

Telephone

Using Blue&Me™ you can make hands-free telephone calls whilst driving and listen to your incoming text messages read aloud.

Trip computer

Displays all data relating to your journey in real time including journey times, distances, speed and fuel consumption.

Navigation

Two outstanding new features to optimise the duration and quality of your journey. Mobile SD technology automatically loads and updates road maps, without having to revert back to the CD. Supplied with SD card with updatable maps for the whole of Europe.

Traffic Message Channel (TMC) displays traffic info received via the TMC/TMC PREMIUM service offered by selected radio stations. In the event of heavy traffic or accidents, the navigator automatically recalculates your route.

Kingbull

"The interior is beautiful and original, more comfortable than I ever could have imagined."

The MiTo's interior has aggressive, imposing styling. The stylish dashboard and trim make for an impressive, hi-tech appearance. It is also equipped with a superbly designed instrument panel featuring advanced graphical display.

Interiors

A high-contrast, black and white photograph of a car's interior, focusing on the front seats. The seats are upholstered in black leather with prominent horizontal stitching. The driver's seat is in the foreground, and the passenger seat is visible behind it. A manual gear shift with a leather boot is visible between the seats. The background shows the car's door and window frame. The overall mood is sophisticated and sporty.

Interiors

Inside the MiTo you feel ready to experience all the joys of driving. This is largely thanks to the wrap-around racing seats that inspire the driver to grab the wheel and the lower suspension set-up for that incomparable sports sensation.

sports setup

Interiors

Only the finest materials have been selected for total comfort, with leather and fabric of unmistakable 'made in Italy' quality.

Alfa Romeo at your Service

3 YEAR ALFACARE DEALER WARRANTY†

†All Alfa Romeo UK cars are covered by 3 years’ unlimited mileage warranty covering parts, materials and labour. This comprises a two-year unlimited mileage manufacturer’s warranty plus a further one-year unlimited mileage Dealer Warranty. Please refer to the Alfa Romeo Service and Warranty Booklet for full terms and conditions.

8 YEAR ANTI-PERFORATION WARRANTY

Subject to regular inspections being carried out, any perforation of the bodywork, due to corrosion, will be repaired free of charge of all parts and labour charges during the first 8 years.

3 YEAR PAINTWORK WARRANTY

Any paintwork defects, due to faulty materials or manufacture, will be rectified free of charge during the first 3 years.

ALFA ROMEO INFORMATION AND CUSTOMER SERVICE

A freephone number (0800 2532 0000) gives you access to our dedicated information and customer service facilities, providing you with details of Alfa Romeo dealers offering additional services such as extended workshop hours, Auto Clinic and Approved Bodyshop facilities.

Alfa Romeo also believes it is important to stay in contact with you

and will, subject to your agreement, telephone you from time to time to ensure you are happy with your Alfa Romeo and the service you receive from your dealer.

FIXED SERVICE COSTS

All Alfa Romeo dealers operate a ‘Menu Pricing’ programme that guarantees fixed service and maintenance costs with no hidden extras. The price you see is the price you’ll pay unless you have given your consent for further work to be carried out.

Insured Products and Services

The following insured products and services are provided through Alfa Romeo Financial Services*

3 YEAR AA CONTACT ROADSIDE ASSISTANCE†

All new Alfa Romeo cars come with 3 years’ AA Contact, which includes Roadside Assistance, Home Start, Relay, Relay Plus and European Cover.

This insured service is provided free of charge and is available 24 hours a day, throughout the year and also includes access to travel information, legal advice and technical information.

ALFA ROMEO MOTOR INSURANCE

Comprehensive car insurance at competitive premiums, with up to 65% No Claims Bonus transferable from your existing policy after five years of claim free driving.

For a quotation, either ring 0800 023 2247, or visit online through www.alfaromeo.co.uk

ALFA ROMEO CONTRACT HIRE**

Very competitive quotations can be obtained through Alfa Romeo Contract Hire for companies, company car drivers with a “User Chooser”

policy or even for private customers. Contracts include full term road fund licence and AA Assistance and are also available with or without maintenance.

Contract Hire finance facilities are available subject to credit approval. Written quotations are available from Alfa Romeo Contract Hire, 240 Bath Road, Slough, Berkshire SL1 4DX. ***

ALFA ROMEO FINANCIAL SERVICES

Who better to design a range of bespoke finance for your Alfa Romeo than Alfa Romeo? And how reassuring to know that the finance options available are as beautifully structured as the car itself. Alfa Romeo Financial Services have been created to meet the demands of the discerning Alfa Romeo driver – and as you’d expect, it offers more in every sense.

You’ll find the rates on a variety of finance plans very competitive, including Alfa Romeo Preferenza, Hire Purchase, Lease Purchase or Finance Leasing. We can also offer you insurance that protects you against the possibility of not being able to meet your payments or in the event of your vehicle being stolen or written off.

Whether you are a business or a private customer, your Alfa Romeo dealer can explain the benefits of these options and provide a bespoke quotation to help you to choose the package that best suits your needs. Beautiful cars, beautifully financed – what could be more fitting?

Written quotations are available from Alfa Romeo Financial Services, 240 Bath Road, Slough, Berkshire, SL1 4DX. ***

† The AA support service and the third year dealer warranty are only applicable to UK vehicles sourced from Alfa Romeo UK.

* Alfa Romeo Financial Services is a trading style of FGA Capital UK Limited. FGA Capital UK Limited is authorised and regulated by the Financial Services Authority for General Insurance.

** Alfa Romeo Contract Hire is a trading style of FGA Contracts UK Limited which is an appointed representative of FGA Capital UK Limited.

*** Credit available to anyone aged 18 or over, subject to status. A guarantee and/or indemnity may be required.
